GLOBAL
AMYLOIDOSIS
SURVEY

Welcome to Amylife!

Amylife is a world-wide independent survey to better understand the impact of amyloidosis on your health, its effects on your quality of life, and much more... Whether you are directly affected by amyloidosis or supporting a patient as a caregiver, your responses will help us to better understand your needs and amplify your voice.

Thank you for your time!

Patient's survey

Full survey

45 min.

You'll be directed to the full survey page where you'll be invited to answer all questions through the 5 topics of the survey. The complete process will take 45 minutes.

It is important that you reach the end of the survey before you quit as you won't be able to pick up where you left off.

Survey by topics

We made possible to take the survey topic by topic so it can fit in a busy schedule.

At the end of each topic, you will be able to save your progression and come back later to complete another topic of the survey.

Please keep in mind that, for the survey to be useful, it is really important that you complete each topic!
